

One of important reasons why this special thematic issue was published in a journal of social sciences in Brazil is an ecological relevance of the Amazon Rainforest which faces big challenges in the current era of climate change.

Thematic issue:

**Desenvolvimento sustentável? Conflitos sociais e ambientais
Sustainable development? Social and environmental conflicts**

Organizador/Guest Editor: Marek Hrubec

Civitas, Vol. 19, No. 2, 2019 (Brazil)

DOI: <http://dx.doi.org/10.15448/1984-7289.2019.2>

Sumário/Content

Social and environmental conflicts or sustainable development?

Marek Hrubec

The corporate capture of sustainable development and its transformation into a 'good Anthropocene' historical bloc

Leslie Sklair

Global dynamics of socio-environmental crisis: dangers on the way to a sustainable future
